PROFESSIONAL SUMMARY

Experienced Frontend Developer with a robust foundation in software management, programming, and user experience design. Demonstrated history of skillfully collaborating with teams to facilitate seamless workflows and delivering top-notch products. Proficient in merging technical proficiency with innovative problem-solving to craft compelling and user-friendly interfaces.

WORK EXPERIENCE

Foreign Trade Bank of Cambodia, Cambodia : May 2024 - Aug 2011

System Administrator : May 2004 - Aug 2007

I worked at the bank as a system administrator for 3 years

Visa Card at Card Center and POS : Aug 2007 - June 2009

I was promoted to work on the new product from the Visa Card project. The processional flow for this new role is end to end, from communicating with Visa International and working closely with Core Banking System Programmers and POS programmers to get up and running properly. I was also responsible for the fixed error on each customer transaction.

Assistant Project Manager: June 2009 - Aug 2011

After completing the project. I have been working on a new banking product, the Internet Banking System project which is responsible for working with a Core Banking system programmer and Internet Banking programmer as a pipe to allow both systems to cooperate with each other.
When the system started, I had to communicate with the Minister of Water Resources and Meteorology, and the Minister of Mines and Energy to request data of bills, so that my bank's customers could pay bills through our Internet banking system.

Arkinfoware

Programmer : April 2001 - March 2004
I played a pivotal role within a collaborative team focused on the development of an advanced banking system. I harnessed my programming skills to elevate the system's efficiency and expand its functionality, thereby making a substantial contribution to the project's ultimate success. Notably, the banking system was constructed using Foxpro and SQL in the year 2001.

NonProfit Organization, Cambodia

Word-Excel and Photoshop Tutorial: 2000 - 2001
- Provided training in the design courses in Photoshop as part of a non-profit organisation's internship program.
- Provided training Word - Excel - PowerPoint

EDUCATION

FULL-STACK Developer Program
Företagets University, Stockholm, Sweden
August 2023 - August 2025

Front-End Developer Program
Beetroot Academy, Online Course
December 2020 - March 2021
Gained proficiency in HTML5, CSS, JavaScript , JSON, Node.js, Bootstrap, Vue.js,
Enabling the creation of interactive and responsive user interfaces.

Bachelor's Degree in Computer Science
Royal University of Phnom Penh, Cambodia : 1997 - 2001

Self study to improve knowledge:
React.js, Restful API, React Native, MangoDB, Firebase and Firebase cloud.

HARD SKILLS

- Proficient in HTML5, CSS3, JavaScript, and ES6+
- Experience with frontend frameworks/libraries: React, Vue.js
- Strong understanding of responsive and mobile-first design principles
- Familiarity with version control systems: Git, GitHub
- Knowledge of UI/UX design principles and collaboration with designers
- Experience with RESTful APIs and asynchronous programming
- Familiarity with build tools: Webpack, Babel
- Cross-browser compatibility testing and debugging
- Driving License

SOFT SKILLS:

- Creativity
- Persuasion
- Collaboration
- Adaptability
- Emotional Intelligence

LANGUAGES:

- Khmer (Native)
- English (Fluent)
- Swedish (Proficient)
